Abstract not available for JP 63115852 (A)

Abstract of corresponding document: EP 0242851 (A1)

1. Claims for the Contracting States: BE, CH, DE, FR, GB, IT, LI, LU, NL, SE N-2'-(aminophenyl)-benzamide derivatives of the general formula II see diagramm: EP0242851, P12, F5 wherein R is an unsubstituted C1-C4 acylamino group or one substituted with hydroxyl. 1. Claims for the Contracting States: AT, ES, GR Process for the preparation of N-2'-(aminophenyl)-benzamide derivatives of the general formula II see diagramm: EP0242851, P13, F5 wherein R is an unsubstituted C1-C4 acylamino group or one substituted with hydroxyl, characterised in that a compound of the general formula IIIa see diagramm: EP0242851, P14, F1 in which R has the same meaning as above and A is a reactive acid group, is reacted with a compound of the general formula IIIb see diagramm: EP0242851, P14, F2 in which X is an amino group provided with a protective group or is a nitro group, in a manner known per se, the compounds thus obtained of the general formula IV see diagramm: EP0242851, P14, F3 in which X and R have the same meaning as above, are reduced or, by splitting off the protective group, are converted into the corresponding compounds of the general formula II.
